UPCOMING EXHIBITIONS

LE CORBUSIER, 10 YEARS ON THE WORLD HERITAGE LIST — MAISON LA ROCHE — PARIS — 1–25 JULY — 18 AUGUST–3 OCTOBER

To celebrate the tenth anniversary of the inscription of *'The Architectural Work of Le Corbusier, an Outstanding Contribution to the Modern Movement'* on the UNESCO World Heritage List, the Foundation is organising an exhibition of plans, original models, photographs and archive material from its collections to showcase the 17 components of the Series. Documentary films by Stefan Cornic on the **La Roche and Jeanneret Houses**, the **Cité Frugès**, the **Villa Savoye**, the **Molitor Building** and the **Duval Factory** will be screened for the first time.

Inclusion on the World Heritage List recognises a transnational series of 17 works and sites spread across seven countries (Germany, Argentina, Belgium, France, India, Japan and Switzerland), which bear witness to the universal significance of Le Corbusier's work and his major influence on the architecture of the 20th and 21st centuries.

Through the diversity of his projects (detached houses, collective housing, religious buildings, cultural and administrative facilities), this series illustrates the invention of a new architectural language that breaks with academic tradition and seeks solutions adapted to the transformations in modern lifestyles.

This anniversary also provides an opportunity to take stock of the management, conservation and promotion of Le Corbusier's architectural work. It invites us to work together to chart new directions in order to preserve what constitutes the Outstanding Universal Value of the Site.

On 17 July, the anniversary date, admission to Maison La Roche and Le Corbusier's apartment-studio (Immeuble Molitor) will be free of charge on an exceptional basis, subject to booking.

SOLAIRE, A SENSORY ODYSSEY — SAINT-PIERRE CHURCH — LE CORBUSIER SITE — FIRMINY — 3 JULY – 17 JANUARY

With *SOLAIRE, a sensory odyssey*, the Church of Saint-Pierre becomes the setting for an immersive experience.

To celebrate the 10th anniversary of its inscription on the World Heritage List and the 20th anniversary of the Saint-Pierre Church, Döppel Studio (Lionel Dinis Salazar and Jonathan Omar) has been given free rein to create an exhibition in which the solar cycle becomes the driving force behind a revival of Corbusian thought.

CLARTÉ IN THE SPOTLIGHT — CLARTÉ BUILDING — GENEVA — FROM 17 JULY

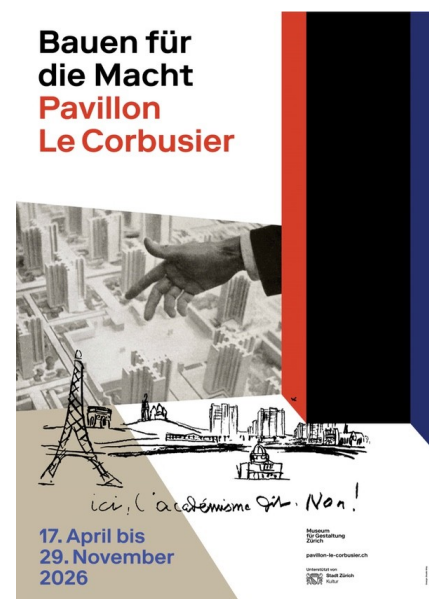

This exhibition, presented in a display window of the building, is conceived as a journey through nearly a century of history. It traces the building's key milestones, from its construction in 1930 to the most recent restorations.

A timeline will highlight the decisive periods in its preservation, the threats of demolition it has narrowly escaped, and the conservation efforts that have led to its international recognition.
